CK67 Ultra-Rugged Mobile Computer

CK67 mobile computers, built on the Mobility Edge™ platform, are ultra-rugged, all-purpose productivity devices ensuring reliable performance, ergonomic design, 5G and Wi-Fi 6E data connectivity for users in Distribution Centers and Warehouses.

Overview

Powered by the Mobility Edge™ platform, the CK67 is an essential investment for enhanced operational efficiency and user satisfaction. It offers a comprehensive suite of management and deployment tools that streamline operations throughout the product's lifecycle, allowing businesses to efficiently manage and deploy devices, thereby reducing downtime and maximizing productivity. With guaranteed support through Android 18, the CK67 meets the demands for lifecycle, security, and durability.

Seamless Connectivity

The CK67 features 5G and Wi-Fi 6E connectivity for staying connected indoors and outdoors. With the highest available bandwidth, versatility, and lowest latency available, it enables warehouse and DC workers to maintain efficient workflows. Whether utilizing a private 5G network, CBRS network, or Wi-Fi 6E, workers benefit from reliable uptime. Each CK67 is equipped with a USB-C port for alternate charging and data transfer, as well as a standard 2nd BLE, which is used in conjunction with OpIntel for the Find my Device feature. This allows users to efficiently locate and secure their lost devices.

Peak Durability and Reliability

Designed to withstand the toughest environments, the CK67 ensures maximum uptime for bustling warehouse operations. Withstanding drops from up to 8 feet and enduring 4,000 tumbles from 1.0m, it undergoes rigorous durability testing before release. Businesses can trust the CK67 as a long-term investment that solidifies operations.

Enhanced User Satisfaction

With an updated form factor, the CK67 boasts a sleek design, larger screen, and ergonomic scan handle, enhancing user experience across various applications. The keypads feature improved button responsiveness and spacing, ensuring comfort and efficiency. With optimized balance, the CK67 feels lightweight in hand, representing a significant advancement in mobile devices and enhancing user satisfaction.
